Help Keep Food Waste Recycling Clean!

Senate Bill 1383 requires a **75% reduction in organic waste disposal**. All residences and commercial businesses are required to participate and **recycle organic waste including food and landscape waste**. Food waste is collected, recycled and made into new products such as compost, mulch and renewable gas. **During the sorting process workers must remove non-acceptable material such as trash, plastic containers, glass and other contaminants.**

Keeping your containers free of contaminants will help sustain recycling costs and keep material clean to create new products.

Spread the message, "Help keep your food waste recycling clean!"

SENATE BILL 1383 ORGANICS DIVERSION AND RECYCLING ARE YOU IN COMPLIANCE?

HOW DOES THIS AFFECT MY BUSINESS OR PROPERTY?

Businesses and multifamily properties are required to:

- Subscribe to recycling and/or organic waste collection service provided by Burrtec. (Customer must secure containers provided by Burrtec. If lost or stolen, customers are responsible for container replacement cost.)
- Annually provide information to employees, contractors, tenants, and customers about recycling, organic waste collection requirements and proper sorting of materials.
- Ensure employees, contractors, tenants, and customers have access to an adequate number, size, and location of containers with appropriate labels and container color.
- Provide containers for the collection of all waste streams including trash, food waste and recyclables in all areas where disposal containers are provided for customers, except for restrooms.
- Provide information to new tenants before or within 14 days of occupation of the premises.
- Prohibit employees from placing recycling and organic waste in a container not designated to receive those materials types.

WHAT ARE THE ADDITIONAL REQUIREMENTS FOR FOOD HANDLING LOCATIONS?

Supermarkets, grocery stores, food service providers, distributors, or wholesale food vendors have additional edible food recovery requirements such as:

- Not intentionally spoiling edible food that is capable of being recovered by a food recovery organization or service.
- Making contract arrangements with a food recovery organization or service to recover edible food that would be redistributed for human consumption.

WHY IS ORGANIC WASTE A PROBLEM?

- The state agency CalRecycle reports that organic waste in landfills accounts for 20 percent of the methane gas generated in California and that methane emissions reductions help in combating climate change.

Holiday Schedule

Please note that services are interrupted on the following holidays:

Memorial Day		Independence Day		Labor Day
Thanksgiving Day		Christmas Day		New Year's Day

When the holiday falls on a weekday, collections for the remainder of the week will be delayed by one day. There is no service interruption or delay when the holiday falls on a Saturday or Sunday.
